We are excited to begin our 38th year with an abundance of excitement, as we are busy preparing the school and the staff for the imminent return of students to campus. We have calendared a full year of activities, field trips, sports competitions and celebrations, all of these coincide with the new upgrades in the school facilities to meet your expectations and provide an integrated educational, entertaining, and safe environment.

In preparation for the upcoming school year, please keep this newsletter handy to re-check it if needed, and check out regularly our website; nozhaschools.com for important information & frequent news.

You must read carefully NLS handbook ([Click Here](#)) issued on our website, nozhaschools.com/ , as it contains a detailed data about school staff, policies and regulations, communication ways, and more info you have to know about. Important Notes That Must be Taken into Consideration

- Share the below protocols with your children.
- Support the schools' decisions in front of your children, so that they feel positive about the return of school.
- All students have to arrive the first day by their parents, as no morning bus service will be operated the first day for bus subscribers, and it will operate at the dismissal of the first day.
- Please note that it is completely and definitively prohibited for all students to bring mobile phones to school; this is in implementation of the Ministerial Decision issued to schools.

Educational Process for the Academic Year 2024-2025

-This year`s education action plan aims to:

1- The reliance on multiple intelligence and the ability of a teacher to discover the specific type of intelligence for each pupil that influences his or her learning process. In order to do so, a teacher can design educational activities to suit the students' skills and interests, such as linguistic, mathematical or social intelligence. All of this enhance the student's self –confidence and leads to more positive results.

2-The reliance on artificial intelligence technologies, as this technique is used in the preparation of curricula, and the provision of immediate feedback to students and teachers which facilitate the identification of strengths and weaknesses and strengthens students' self-learning.

3- Depending on the integrated education system, the inversion of the classroom, and the use of Bloom's Taxonomy that enhance students' thinking cognition skills, depending on the need to follow illustrated lessons prepared and recorded by our best teachers, which we will upload to the COLNN platform and be discussed between the student and teacher in the classroom to access all thinking cognition skills

Notes:

Newcomers will receive a message on their phones concerning **COLNN** platform and the know-how of using it as well as sending a video for more clarification to illustrate its usages. In addition to, a link that allows you to get the username and the password for the student's and parent's accounts.
